May 2020

## PROFILE

A creative thinker, adepted in software-web development and working with various structures. Knowledgeable in user interface, testing and debugging processes. I effectively self manage during independent projects, as well as collaborate in team setting

## WORK EXPERIENCE

### Intern Software Developer

Cardo AI

October 2023 -- Feb 2024,

- As a Python/Django Developer, my primary responsibility revolved around automating and synchronizing data processes within the company's ecosystem.
- My primary focus was on building robust APIs capable of transmitting, synchronizing, and sanitizing data efficiently

### Intern Web Developer

StarLabs

Jul 2022 -- Oct 2022, Prishtine

- In addition to my role in front-end development, I played a vital role in shaping the user interface (UI) and user experience (UX) of the Interview Management System (IMS). I collaborated closely with the design team to create a visually appealing and intuitive interface that streamlined the hiring process for both recruiters and candidates.
- I developed the showcase site for the main IMS web application using React.js and Tailwind CSS. Leveraging the power and flexibility of React.js, I created a dynamic and responsive user interface that enhanced the overall user experience.

## SKILLS

Python • Django • Java • Spring • Databases • SQL • Git • APIs • Communication • Collaboration
