

Motivational Letter

To whom it may concern,

I hope this letter finds you well. I am Blendi Miftari, a 21-year-old in my final year of Computer Science and Engineering studies at UBT University. I am writing to express my sincere interest in this position, which, in my eyes, represents an extremely valuable opportunity that I cannot afford to miss. I am eager to prove myself and become part of this summer internship.

Usually, I come across many internship announcements on the internet, but when I saw this announcement, I was immediately drawn to it and decided to write this letter. I am deeply grateful, and I hold the mission of Camp Bondsteel in high regard in our country and the impact it has had on society. I believe that I can benefit greatly from this experience and also contribute my values.

In my pursuit of knowledge and skill enhancement, I have completed courses in HTML, CSS, JavaScript, Java, and WordPress. These courses have provided me with a strong foundation in web development and programming languages. Additionally, I have had the privilege of gaining practical experience during a three-month internship at Starlabs, where I worked extensively with Laravel, a PHP framework known for its robustness and scalability. This experience further solidified my understanding of software development principles and reinforced my passion for coding.

Moreover, I have contributed to group projects utilizing ASP.NET, React, and Node.js, further honing my abilities in software development and project management. While I recognize that I have much to learn, I am fueled by a relentless desire to advance my skills and make meaningful contributions in the field of programming.

What sets Camp Bondsteel apart for me is its commitment to excellence and its role in shaping a better future. I am inspired by the opportunity to work alongside talented individuals dedicated to making a positive impact. I am eager to immerse myself in the dynamic environment at Camp Bondsteel, where I can continue my journey of growth and contribute my skills to projects that matter.

In conclusion, I am wholeheartedly committed to seizing this opportunity and making the most of it. I am eager to leverage my skills and experiences to contribute to the programming section at Camp Bondsteel while furthering my own development. Thank you for considering my application. I am excited about the prospect of contributing to Camp Bondsteel's mission and look forward to the possibility of discussing how I can be a valuable addition to your team.

Warm regards,

Blendi Miftari
